

Employee Policy

Sample document for testing purposes

1 1. Purpose and Scope

This policy sets baseline expectations for conduct, performance, safety, and responsible use of organizational resources. It applies to employees, interns, and temporary staff while performing work for Sample Organization.

2 2. Professional Conduct

Employees are expected to act honestly, respectfully, and professionally. Harassment, discrimination, bullying, threats, violence, fraud, theft, and retaliation are prohibited. Concerns should be raised promptly with a manager, Human Resources, or another approved reporting channel.

3 3. Attendance and Performance

Employees should work their scheduled hours, arrive prepared, and communicate delays or absences as soon as possible. Work should meet agreed quality, safety, and confidentiality requirements. Managers should provide clear expectations, feedback, and an opportunity to improve when performance concerns arise.

4 4. Confidentiality and Data Protection

Confidential business, customer, employee, and patient information may be accessed only for legitimate work purposes. Employees must use approved systems, protect passwords, verify recipients before sending information, and report suspected loss or unauthorized access immediately.

5 5. Conflicts of Interest

Employees must disclose actual or potential conflicts, including outside work, gifts, personal relationships, or financial interests that could influence business decisions. Disclosure does not automatically mean wrongdoing; it allows the organization to review and manage the situation fairly.

6 6. Technology and Acceptable Use

Organizational devices, accounts, networks, and software are primarily for work. Limited personal use may be allowed if it is lawful, secure, does not interfere with work, and does not create material cost or risk. Employees must not install unauthorized software or bypass security controls.

7 7. Workplace Safety

Employees must follow safety instructions, use required protective equipment, and report hazards, injuries, and near misses promptly. No employee should perform work while impaired by alcohol, illegal drugs, or any substance that makes the work unsafe.

8 8. Reporting and Investigations

Reports will be reviewed as appropriate and handled as confidentially as practicable. Employees are expected to cooperate honestly with authorized investigations and preserve relevant records. Knowingly false reports and obstruction may result in corrective action.

9 9. Policy Administration

Human Resources owns this policy and may update it as organizational needs or legal requirements change. Violations may lead to coaching, written warning, suspension, or termination, subject to applicable law and organizational procedures.
